### STILL THE TRUTH.

Oklahoma Has the Youngest Adjutant General in the United States.

Oklahoma is but a territory in name. It is the equal in many respects of any state in the Union, and while Indiana is boasting of possessing the youngest adjutant general of any state in the Union, Oklahoma has the youngest among all of them. Indiana's adjutant general is 29 years old, while Adjutant General Bert C. Orner, of Oklahoma, is only 25 years of age.

### She's Fine.

The alfalfa crops in Pottawatomie and Lincoln counties are the best that have ever been known and some of the alfalfa producers are so sanguine over their flattering prospects that they are expecting ten and twelve tons of alfalfa hay to the acre. It is now knee high and still climbing skyward. This further verifies the fact that Shawnee is located in the garden spot of the territory. Shawnee Democrat.

An ounce of prevention is worth a pound of cure, and a bottle of Ballard's Morehouse Syrup used in time is worth a staff of physicians with a drug store or two included. Price, 25 and 50 cents.

Wheeler & Son and F. B. Lillie & Co.

### KEEP YOUR MONEY AT HOME.

#### AN APPEAL TO THE PEOPLE.

It is the ambition of the citizens of Guthrie to have this city the metropolis of the territory. To do this every citizen has a duty to perform by encouraging all branches of manufacturing (a city without factories is dead) it does not matter how small a factory is—it ought to be encouraged by every spirited citizen, and you can do this by patronizing home industry and have the pleasure of seeing a small factory, animated by the community, compelled to send to other states for more men.

Mr. I. Segal has opened the New York Cigar factory, employing first class union men, manufacturing a fine grade of cigars, guaranteed to stand the criticism of the public. Has had thirty years experience in manufacturing cigars in the city of New York and comes to Guthrie highly recommended making the following well known brands:

The 10 cent cigars: Governor Barnes and Rebecca.

The 5 cent brands: Gun Club, Capitol, Sweet Rose and Little Governor. A few questions to be considered:

1. Do the manufacturers in other states pay our taxes to build our public institutions and increase the valuation of property?

2. Are the citizens of Oklahoma justified in encouraging Eastern sweat shop made cigars or any other line of

goods which could be manufactured here?

3. By demanding home production, will stimulate the manufacturers of other states to come here and start branch factories, knowing the citizens will demand their goods.

4. This territory must be the great manufacturing district of the Southwest and it depends on the citizens for help by asking for home production.

Yours respectfully,

I. SEGAL.

Proprietor of New York Cigar Factory, Guthrie, Okla.  
WHEN YOU BUY YOUR CIGAR BE SURE YOU ASK FOR HOME MADE GOODS.

### The Fruit Outlook.

If nothing happens to endanger the fruit crop between now and the fruiting season it will be the largest ever grown in the territory. An examination this morning of apricots in an orchard near town shows that the prospects even for this heretofore uncertain crop is fine, the fruit being nearly as large as peas and in great abundance. All other fruit in the same orchard is in fine condition, the recent cold weather not having injured it in the least. The orchard examined is located upon very high ground.

Bobbs—She's a dream of loveliness, a perfect poem. Stobbs—Yes; I've noticed she seems averse to you.
